

Teacher Recommendation

Date: 29 December 2011

Re: Faith Gary Teacher Recommendation

To Whom It May Concern:

I am pleased to write this letter of recommendation for Faith Gary, the grades 1 and 2 teacher at Chengdu Meishi International School.

I am uniquely qualified to recommend Faith based on my having worked with her as a colleague, while at the same time having had a child in her class for two school years. As a parent, I have been very pleased with my son's progress over the three semesters that Faith has taught him. My son Alec came into the 1st grade class reading at a very rudimentary level, reading basic three word sentences. Presently Alec is reading very complex sentences with understanding and has an expansive academic vocabulary. Moreover, his mathematical skills, which were essentially "on-level" upon entering the first grade, are now well above level. I'm grateful that he's had a teacher like Faith to facilitate his progress and provide him with an opportunity to flourish. Faith has shown a keen interest in my child, and, based on limited observations, she nurtures the rest of her students in a similar fashion.

Professionally, I have seen Faith contribute to the school, actively engage in projects, and be a positive influence within the school community. Faith is seen as proactive and collegial, and she fosters relationships inside and outside of the classroom. I have benefited by being associated with her during our time at Meishi. In short, I recommend Faith for any primary school teaching posts without reservation.

I am pleased to elaborate further. Feel free to contact me via the information in my signature block below.

Sincerely,

12/29/2011

X
